NOTICE TO ALL PROSPECTIVE BIDDERS

**RE: ADDENDUM 3
2019-EDW-45
Supply and Installation of 3 New Playgrounds**

This Addendum is being issued to change and/or provide clarification and additional requirements for the specifications of the unit to be bid. The changes are summarized below.

Questions/Answers

1. Now that the requirement for surfacing has changes from sand to Engineered Wood Fibre, will the budgets be increasing to compensate for the increase in cost?

No, the budgets are set as outlined in the tender.

2. What sites require drainage and what type of drainage do you require? Engineered Wood Fibre requires good drainage to keep this surfacing from growing mold etc. if not draining well.

None of the three sites will require drainage.

3. Each park has enclosed swing seats intended for 18 months to 5 year old children yet the playground equipment is intended for 5 – 12 years. Is there supposed to be anything for the younger children or only the older children?

Just the age range described in the tender.

4. Will the municipality take on the restoration to help relieve the budgets to allow more dollars available for equipment?

No, we will require that all steps needed to return the site to the state it was in prior to construction commencing, are taken by the contractor.

5. Please confirm which type of swing seat would be removed to add the molded bucket seat into the existing swing set? Would 1 belt swing or 1 enclosed swing seat be removed for the molded bucket seat?

If there are to be any seats removed from existing swing set that it be the toddler seat(s).

6. Are we required to do only the installation of the EWF? Will the County be responsible for everything else?

The County will prep the site for the footprint required in the accepted proposal/design. NO drainage will be needed at any of the three sites. Sand will be removed and area excavated to a depth of 12 inches.

August 21, 2019

We will require that all steps needed to return the site to the state it was in prior to construction commencing, are taken by the contractor.
